

## :Quality Assurance

At storeys:ssp we are committed to delivering professional advice and services to achieve the best possible results for our clients.

All our core business processes are quality assured in accordance with the internationally recognised Quality Management Standard ISO9001:2000.

Our certification is undertaken by British Standards Institution (BSI) Management Systems.

The scope of the storeys:ssp Quality Management System is:

"The provision of professional services and advice of Chartered Surveyors relating to the valuation, marketing and management of all types of retail, commercial and industrial property for occupation or investment; the negotiation of rating assessments and compulsory purchase compensation; and building surveying consultancy including construction."
